Rimfire Sporter is a great way for young shooters to learn about target shooting and experience how much fun it is. Rimfire sporter rifles are light enough that new shooters and younger juniors can handle them. With scoring rings all the way out to a generous-sized one ring, all shooters are going to score hits.

A few club Garand rifles are available for match use – call for availability. There is a limited supply of M2 Ball ammo for sale. For safety concerns, if using a club rifle, competitors will be required to purchase & use club ammo.
